

Public Notice – Environmental Permit

PURPOSE OF NOTICE: To seek public comment on a draft permit from the Department of Environmental Quality for the withdrawal of ground water in Norfolk, Virginia.

PUBLIC COMMENT PERIOD: October 14, 2007 to November 13, 2007

PERMIT NAME: Ground Water Withdrawal Permit issued by DEQ, under the authority of the State Water Control Board

APPLICANT NAME, ADDRESS AND PERMIT NUMBER: Capital Concrete, Inc.; 400 Stapleton Street, Norfolk, Virginia 23501; GW0048300

PROJECT DESCRIPTION: Capital Concrete, Inc. has applied for reissuance of a permit for their concrete plant (Plant 1) in Norfolk, Virginia. The permit would allow the applicant to withdraw an average of 38,630 gallons per day. The ground water withdrawal will support the production of concrete. The proposed withdrawal will utilize the Yorktown-Eastover aquifer at a depth between 65 feet to 120 feet below the land surface at the withdrawal site. An aquifer is a body of rock or layer of sediment in the ground in which ground water is stored and transported. DEQ has made a tentative decision to issue the permit.

HOW TO COMMENT: DEQ accepts comments by e-mail, fax or postal mail. All comments must be in writing; contain a brief statement on how the proposal affects the person commenting, other users or the aquifer; and be received by DEQ during the comment period. The public also may request a public hearing. If a public hearing is requested, the written comments should include the reason for holding a hearing and related factual concerns. DEQ may hold a public hearing, including another comment period, if public response is significant and there are substantial, disputed issues relevant to the proposed permit. The public may review the draft permit and application at the DEQ office named below.
